WORK EXPERIENCE

DEV PIPELINE | DEC 2021- PRESENT || FRONTEND DEVELOPER:

Working in an Agile environment we do sprint planning every 2 weeks and get tasks done by collaborating with the design team for features that the clients want established in their apps.

Work with backend team using python, flask, SQL, and SQLAlchemy to scale apps, using associated API's for frontend.

Tech Stack: Javascript, SCSS, React, Python, SQL, Flask, SQLAlchemy

Famline App (social media app):

- Using API endpoints to interact with backend tables for user information on their profile pages.
- Using react hooks to control state management
- Debug app and refactor based on previous version for version 2.

Oexhub (Profit Sharing app):

- Built out ratings component, using state and api's to gather company data from the backend, then give them a rating that's dynamic.
- Built out sign up pages and tiers page for different level of subscriptions.

HOME DEPOT | OCTOBER 2017 -AUGUST 2019 CHAT || CUSTOMER SERVICE REP:

Take oncoming calls for customers to help with order issues and help customers place orders over the phone.

Make sure customers were taken care of with their orders and upselling if the opportunity was there.

ADROLL | MARCH 2016 - MARCH 2017 || ACCOUNT REPRESENTATIVE:

Manage customer accounts for Adroll's promotional platform.

Reaching out to websites to have Adroll be a part of their marketing strategy.
